

This is a commutative square:

$$\begin{array}{ccc} X & \xrightarrow{f} & Y \\ g \downarrow & & \downarrow h \\ Z & \xrightarrow{k} & W \end{array} \tag{0.1}$$

This is a commutative pentagon:

$$\begin{array}{ccccc} & & Y & & \\ & f \nearrow & & g \searrow & \\ X & & & & Z \\ u \downarrow & & & & \downarrow h \\ V & \xrightarrow{v} & & & W \end{array} \tag{0.2}$$

Playing around:

$$\begin{array}{ccccc} & & Y & & \\ & f \nearrow & & g \searrow & \\ X & & & & Z \\ u \searrow & & & & \nearrow h \\ & & W & & \end{array} \tag{0.3}$$

More playing:

$$\begin{array}{ccc} X & \xrightarrow{f} & Y \\ g \uparrow & & \downarrow h \\ Z & \xrightarrow{k} & W \end{array} \tag{0.4}$$

This is a commutative hexagon:

$$\begin{array}{ccccccc} & & Y & \xrightarrow{y} & Z & & \\ & x \nearrow & & & \searrow z & & \\ X & & & & & & W \\ & u \searrow & & & \nearrow w & & \\ & & U & \xrightarrow{v} & V & & \end{array} \tag{0.5}$$
